PREFACE

The *Title List of Documents Made Publicly Available* is a monthly publication It contains descriptions of the information received and generated by the U S Nuclear Regulatory Commission (NRC) This information includes (1) docketed material associated with civilian nuclear power plants and other uses of radioactive materials and (2) nondocketed material received and generated by NRC pertinent to its role as a regulatory agency As used here, *docketed* does not refer to Court dockets; it refers to the system by which NRC maintains its regulatory records This series of documents is indexed by a Personal Author Index, a Corporate Source Index, and a Report Number Index

The docketed information contained in the *Title List* includes the information formerly issued through the Department of Energy publication *Power Reactor Docket Information*, last published in January 1979 Microfiche of the docketed information listed in the *Title List* is available for sale on a subscription basis from the National Technical Information Service (NTIS). See NOTES at the end of the Preface for the complete NTIS address

We encourage your comments, criticisms, and suggestions In particular, if there are title descriptions that are not meaningful, please let us know so that we can correct the data base In so far as possible, we would like this document to be a valuable part of your reference material
